About Us

National MLTSS Health Plan Association

The National MLTSS Health Plan Association is a national association of the leading managed care organizations that deliver high-value, quality managed long-term services and supports (MLTSS) for state Medicaid programs and beneficiaries. Association members also operate Integrated Plans for dually eligible beneficiaries. Our organizations serve the majority of MLTSS and the Medicare-Medicaid markets.

Representing the Full Range of MLTSS and Integrated Plans

Association members represent the spectrum of MLTSS health plans, including large, national MCOs with MLTSS contracts in multiple states and regional and community-based MCOs, both for-profit and non-profit. Member plans enroll over 1,100,000 Medicaid and dually eligible beneficiaries in MLTSS and Integrated Plans across 22 states.

Member Organizations

Aetna	AmeriHealth Caritas
CareSource	Centene
Commonwealth Care Alliance	Elevance Health
Inclusa	L.A. Care Health Plan
Lakeland Care	Molina Healthcare
UPMC Health Plan	VNS Health

Preferred Vendors

Preferred Vendors are select companies who serve individuals relying on long-term care services and supports. Vetted by the Association's board, these companies demonstrate their leadership and commitment to the Association's goal of providing the highest quality care to vulnerable populations.

(603) 303-8857

HealthEdge is the health insurance industry's first digital nervous system to provide automation and seamless connectivity between all parts of a payer's administrative and clinical systems. HealthEdge provides modern, disruptive healthcare IT solutions that health insurers use to leverage new business models, improve outcomes, drastically reduce administrative costs, and connect everyone in the healthcare delivery cycle. Its next-generation enterprise solution suite is built on modern, patented technology and is delivered to customers via the HealthEdge Cloud or onsite deployment.

In 2020, funds managed by Blackstone became the majority owner. HealthEdge's portfolio of mission-critical technology assets for payers includes HealthRules Payor, HealthEdge Source, HealthEdge GuidingCare, and Wellframe that collectively drive a digital transformation in healthcare. momsmeals.com

For more information:

Nathan Jensen, Senior VP,
Sales & Business Development
nathan.jensen@momsmeals.com
(515) 963-7011

Mom's Meals is a leading provider of fully-prepared, refrigerated meals delivered direct to homes nationwide.

With programs for long-term service and support, chronic care, post-discharge care and self-pay individuals, clients have access to menus to support major health conditions and get to choose every meal, every order, to address their specific needs.

public partnerships

Public Partnerships | PPL

40 Broad St.

Boston, MA 02109

www.publicpartnerships.com

For more information:

Jay Egan, VP, National Managed Care Relations

jegan@pcgus.com

(617) 717-1038

Public Partnerships | PPL supports individuals with disabilities or chronic illnesses and aging adults, to remain in their homes and communities and self-direct their own long-term home care. This is an alternative to admittance into restrictive long-term institutional care or using home-care agencies that offer them little to no choice and control over their care/support workers and services.

We are nation's largest and most experienced financial management service provider serving eligible Medicaid populations choosing self-directed home care.

Today we provide Fiscal/Employer Agent services for over 40 programs, partnering with 21 Managed Care Organizations (MCO) within those programs, across 23 states. We serve 135,000 individual self-directing program participants and their over 153,000 care/support workers, managing over \$3 Billion in payroll funds and \$81 Million in Goods and Services funds.

TenderHeart Health Outcomes

11310 US-290,
Austin, TX 78737

<https://longhornhealth.com>

For more information:

Patty Packard, SVP – Development

ppackard@tenderheart.com

(561) 818-6734

TenderHeart Health Outcomes began as a typical DME provider in 2004 — under the name Longhorn Health Solutions — but since then we’ve developed into a national leader in providing services specializing in incontinence management through value-based arrangements. Our approach, as opposed to a fee-for-service model, more closely aligns with the goals for state Medicaid programs and Managed Care Organizations (MCOs). Instead of trying to maximize reimbursement through more product use, our goals are to improve patient care and health while reducing the healthcare spending appropriate to the patients being served.

healthcare Vesta

Vesta Healthcare

287 Park Ave S, 3rd Floor
New York, NY 10010
Vestahealthcare.com

For more information:

Cait Kennedy, Head of Strategy
cait@vestahealthcare.com
(646) 415-3072

Vesta Healthcare improves outcomes and reduces costs in MLTSS, Medicare & Duals populations by empowering caregivers and enabling world-class care at home. The Vesta Model of Care is purpose built for frail seniors who have caregivers in the home, connecting paid and unpaid caregivers with a Medicare-funded clinical care team. We partner closely with health plans to manage clinical and financial risk for the populations they serve.

There are 3 components to Vesta's Model:

- **Connected & Engaged Caregivers:** Vesta partners with home care agencies and caregivers, and establishes simple, actionable steps caregivers can take every day to make caring for clients and loved-ones easier and less stressful. They also provide the digital tools and technology to support and engage members and their caregivers at home.
- **360° Patient Insights:** Vesta's integrated platform connects with real-time in-home observations with Remote Patient Monitoring devices, PERS devices, HIE data, EVV check-ins, and more, all under one view. Vesta's proprietary tech platform aggregates data from all patient interactions, inclusive of at-home caregiver insights, and leverages predictive analytics to personalize care and deploy early warnings, enabling interventions and acute event avoidance.
- **Personalized, 24/7 Clinical Support:** Vesta's affiliated medical group of always-on remote clinicians (NPs and RNs with MD oversight) monitor patients and are available 24/7 for caregiver or member outreach, enabling caregiver-executed, clinician-guided proactive and responsive care. They closely partner and coordinate interventional actions with care managers, PCPs, and family caregivers to produce meaningful results for beneficiaries.
